Linked Accounts

Easily onboard your vendors, sellers, service providers, etc. as linked accounts on Razorpay Route without the hassles of any physical paperwork.

Transfers

For each payment, create as many transfers as you need to various linked accounts with complete control over the splitting logic. Automate the process through powerful Transfer APIs.

Settlements

Control the entire fund movements with flexible settlement plans. Select between periodic settlements or choose to defer them until some business conditions are met.

Scale with Razorpay

100,000+ Sellers? Millions of transactions? Razorpay Route is built for scale.

Over the last couple of years, we have worked hard with our banking partners so you don't have to. Razorpay's servers are completely hosted on Amazon AWS with auto-scaling systems that scale up to handle any traffic that you throw at it today or in the future.
